

The Havelock North Business Association is a non-profit, incorporated society made up of owners and representatives of many diverse businesses based in or around Havelock North.

Our 2 key roles are to provide a support network for local businesses and to develop strategies to enhance, promote, and advance Havelock North as a destination. We aim to continue to make Havelock North Village a vibrant destination for visitors. Our website aims to be a one-stop directory for all that Havelock North has to offer.
